# JOSEPH OLAMIDE OLADOKUN

OLAMIDEOJ | LINKEDIN GITHUB

Email: Olamidejoseph0801@gmail.com

Mobile: +234 8138853522

### **EDUCATION**

#### LAGOS STATE UNIVERSITY

ring February 2019 – February 2024

Bachelor of Science (HONORS) – Mechanical Engineering

### **SKILLS SUMMARY**

Languages: JavaScript

Frameworks: ReactJS, NodeJSTools: Excel, PowerPoint

Platforms: Visual Studio Code, Sublime Text

• Soft Skills: Effective communication & collaboration, Time & People Management

#### **WORK EXPERIENCE**

## FRONTEND DEVELOPER INTERN | ZIDIO | LINK

January 2024 - April 2024

- Collaborated closely with designers to transform wireframes into visually stunning UI components using HTML, CSS, and JavaScript frameworks like React.
- Championed clean, modular code practices to ensure seamless integration and maintainability, while prioritizing cross browser compatibility and responsiveness.
- Expertly bridged frontend components with backend services and APIs, enabling dynamic data display and enhancing user interactivity.
- Demonstrated proficiency in version control systems like Git, ensuring codebase integrity and facilitating seamless collaboration within the team.
- Actively engaged in cross functional collaboration with backend developers, designers, and product managers to refine application requirements and drive continuous improvement.

#### **PROJECTS**

### FORM VALIDATION | LINK

**NOVEMBER 2024** 

- I Implemented client-side validation to check input formats for fields such as email, phone number, and password strength as users' type, providing instant feedback.
- I added clear, contextual error messages next to each field, helping users correct errors before submission.
- I ensured that mandatory fields cannot be left empty, prompting users to complete each section of the form accurately.
- I Used regex patterns to validate complex data types, including email addresses and phone number, ensuring correct data format.
- I made form elements accessible to screen readers, ensuring usability for all users, including those with disabilities.

WEATHER APP | LINK MAY 2024

- Integrated a third-party weather API to fetch live weather conditions for any city worldwide, ensuring up-todate information.
- Implemented geolocation functionality, allowing the app to detect and display the weather for the user's current location automatically.
- Provided users with a week-long weather forecast, helping them plan ahead based on temperature, precipitation probability, and other metrics.

- Ensured the app is fully responsive and optimized for mobile, tablet, and desktop viewing, making it accessible on various devices.
- Incorporated animated icons and color-coded backgrounds that adjust based on weather conditions (e.g., sunny, rainy, cloudy), enhancing the visual appeal and user experience.

QUIZ APP | LINK APRIL 2024

- Integrated a diverse question bank and implemented random question selection to ensure each quiz session is unique.
- Provided immediate feedback for each question, indicating correct or incorrect answers and explanations to enhance learning.
- Tracked the user's score throughout the quiz, displaying results and percentage accuracy at the end, with an option to review answers.
- Created a mobile-friendly, responsive interface to ensure smooth user experience across devices, from smartphones to desktops.

### **ECOMMERCE WEBSITE | LINK**

#### **FEBRUARY 2024 – MARCH 2024**

- I led the end-to-end development and launch of a fully functional ecommerce platform, integrating frontend technologies like HTML, CSS, and JavaScript with backend solutions powered by Node.js, Express.js, and MongoDB.
- I maintained optimal website performance and security through diligent monitoring and updates using Git version control.
- I Implemented secure payment gateways and collaborated closely with cross functional teams to align with business objectives and brand identity, resulting in seamless customer transactions.

### **CERTIFICATES**

## Zidio Web Development (Internship) | CERTIFICATE

**APRIL 2024** 

- Gained in-depth knowledge and hands-on practice in HTML5, CSS3, and JavaScript, with a focus on building responsive, visually appealing user interfaces.
- Developed and contributed to projects that included interactive web elements, dynamic content updates, and layout responsiveness to create a seamless user experience.

## Introduction to Front-End Web Development (Coursera) | CERTIFICATE

**MARCH 2023** 

- Gained a strong understanding of HTML5 for structuring web pages and CSS3 for styling, focusing on creating accessible and well-structured content.
- Learned how to create websites that adapt seamlessly to different screen sizes, improving user experience on both mobile and desktop platforms.
- Acquired basic knowledge of JavaScript for adding interactivity to web pages, such as handling user input and dynamically updating content.
- Applied skills by building projects such as static websites and simple interactive pages, which helped solidify my understanding of the concepts.

### 100 Mentorship Minutes (ADPList) | CERTIFICATE

January 2023

- Received tailored advice on career progression, enhancing decision-making skills, and developing a clear roadmap for long-term professional growth
- Built relationships with mentors and peers, creating a supportive network to guide future career decisions and opportunities.
